

Certificate

sonnenBatterie installer

Herr Marcio Brillhante gained „Certified Installer“ status for the sonnenBatterie eco 8.0 and hybrid 8.1 on 19.10.2017 conducted by Robert Röhr.

The participant is hereby authorised to carry out the following activities in connection with the sonnenBatterie:

- Planning, installation and commissioning of sonnenBatterie eco 8.0 and sonnenBatterie hybrid 8.1
- Signing of sonnenBatterie commissioning protocols

The storage system must only be installed and commissioned by authorised electricians. Authorised electricians must meet the following criteria:

- The company the electrician works for must be certified by sonnen.
- The electrician must be considered competent and registered to work to the country specific safety standards.
- The electrician must have successfully complete sonnen certification training for this product.

Wildpoldsried, 15.11.2017

Manfred Schulz
Vice President Technical Office
